## JAS. W. DUNNET.

## GLASGOW WAREHOUSE.

Bellefleur, March 28, 1887.

# Daily Intelligencer.

BELLEFLEUR, MONDAY, APRIL 4.

## MERE MENTION.

Snow is disappearing rapidly. Yesterday was a fine day. The ice on the river is getting weak. The asphalt pavement is popping up. The City Council will meet tonight. The hotels are doing a good business. The house cleaning service is at hand. Police Court is now held in the City hall. Next Sunday will be a festival for egg glutting. The street crossings on Front street are horrible. Dr. Ackert's Eminent can be found at Gen's drug store. It is the time to cart rubbish to the dumping ground. The price of chickens still keeps up to 60 cents per pair. The snow has disappeared from the sidewalks and crossings. E. J. T. B. is the medicine to get for your liver and kidneys. If you want a good Hair Restorer on quire at Lathimer's Barber shop. The Salisbury Treasurers are covering the bill boards with fine posters. Customers have reluctantly allowed away their stores for the summer months. We direct attention to Mr. Knox's advertisement of hams, bacon, lard and dried beef. Leave your order at Hennessey's for pants, undoubtedly the best value in Bellefleur. Concert at Albert College Thursday evening next. An excellent programme. Admission 25 cents. If they all get out, there will be 29 bar rooms in this city this year. There are that many applicants before the commissioners. 1887, new spring styles at Lathimer & Meyers, closing out sale (look at the window). No humber, must be closed in 30 days. 27844 Our prices for gloves, hosiery and embroideries are the lowest in the city. An immense stock to choose from.—J. Hennessey. The South Hastings Orange County Lodge will hold a special meeting in the Orange Hall, Bellefleur, on Tuesday, the 12th inst., at 1 p.m. Mr. Peter Mayhew has been appointed Bailiff of the Division Court in this city. Mr. Mayhew has served his party here faithfully for this small office. There was a large attendance last evening at Bethel Hall to hear Mr. Law, the Aberdeen evangelist. He is a pleasing and attractive speaker and will give the Bible reading at the same place to-morrow evening. REMINDER: Lathimer & Meyers are closing out the whole of their extensive stock of Hats and Fur regardless of cost. The stock has to be cleared out in 30 days. 27844 Energy will do almost anything, but it cannot exist if the blood is in arrears and moves sluggishly in the veins. There is nothing so good for clearing the blood and imparting energy to the system as Ayer's Sarsaparilla. Price \$1.00. Sold by druggists.

## PROBABILITIES.

TORONTO, April 4.—Lakes.—Generally cloudy, with rain, followed this evening by light snow, colder weather and strong west to north winds.

## SUMMER LAKE.

The street car company have their track cleared, and the cars were running today. It gave a summer like appearance to West Street.

## TAMARAC.

Tamarac is a preparation containing great curative properties for Coughs, Cold, Hoarseness and Lung Complaints.

## A GOOD MOTIVE.

Harry Richards, of Toronto, agent for Fine Art Publications, states that he was so impressed with the devotion for eight years, that he could scarcely be induced to leave his post. He desires to make this story known for the benefit of others afflicted.

## Three Ball Billiards.

The Champion Three Ball Player at the Henderson House.

Harry McKenna, the champion three ball billiard player, gave an exhibition of his skill at the Henderson House billiard parlor on Saturday night. The price of admission was fixed at fifty cents and it was surprising to find so many venerable men and children who were in the city who were willing to sacrifice that sum for the privilege of leaning against the wall to be turned green with envy by the expert's easy manipulation of the cue.

An amateur scored with the champion at 9 o'clock and got first shot. He failed to score a point. His "leave up" would have punished him practically, but McKenna by a well measured stroke scored and drew the three balls in a group against the "natural" rail of the table. He did not let them go until he had scored 500. During the time he was making the run, with perhaps a few exceptions, the three balls could have been covered by a hat. He kept them near the cushion all through the play and by his delicate touch made a circuit of a half of the table. After he had scored the five hundred he made some exhibition shots with three and four balls. They were exceedingly difficult and very cleverly executed. McKenna certainly understands his business. Besides being well practiced he possesses qualities which combine to make him, in billiards, what others without them could never hope to attain. He seems to have a quick eye for distance and a delicate sense of strength. The audience were enthusiastic and frequently gave expression to their feelings by warm applause.

## An Unlucky Illustration.

There are a number of venerable patriachs in this city who have, by a life long devotion to the cause of Christianity, won an honorable place in the hearts of those to whom their worthiness is known. It was one of these, one who never missed service and never fails to have a word of cheer for one in distress, that a certain city clergyman was pleased to refer to as Sumner, mentioning as an example of early communion and after faithful service. The eyes of the congregation were turned toward him. The fox and the eagle must rest. So many examples of early communion. The old gentleman was quietly reading his paper all unconscious of the sudden prominence that an unsuspecting pastor had given him.

## The Wheel.

The Henderson House has been granted headquarters for the C. W. A. Whelan will always be warmly welcomed and hospitably entertained by the Captain. Another week of this kind of weather and the roads will be sufficiently well settled for the wheels of the city.

## Mr. Knowles of Bradford.

Mr. Knowles of Bradford, agent for the Warwick bicycles, is in the city stockpiling up the Ramblers. He says wheeling will boom this season as it never did before. He is making numerous sales.

## Road Accident.

Yesterday afternoon driven by Mr. O.S. Hodge with whom was Mr. H. F. Fuller, being fractious as they were passing the carriage containing Col. Lester and Robert Elliott on Foster Avenue. The rear wheel of Col. Lester's carriage was torn off and the occupants thrown out into the road. Both were considerably injured.

## Social Assembly.

The J. O. F. M. silver band have invitations out for a social assembly to be held in the Oddfellows' hall on Monday evening next. A large orchestra will furnish the music and refreshments will be served. The band always gives good entertainments, and coming so soon after Lent, a large gathering may be anticipated.

## Inspector Hale.

Wm. Hale, Inspector for the Board of Health, was before the Mayor this morning, charging with dumping night soil in the river. His witness swore that he had not committed the offence. The offence was committed but the identity of the offender is in doubt.

## An Apology.

To the hundreds that we were unable to show goods to on Saturday, we have to apologize. The sale continued 30 days and we must close out the whole stock of hats and furs at that time. Come again and you will get what you want. LATHIMER & MEYERS. 27844

## Opening Our.

Mr. Jas. B. Young, a former clerk in the Glasgow Warehouse, but later with Munro & Co., is about to open up in the dry goods business, on his own account in Trenton. He has a good knowledge of the business and should succeed in his undertaking.

## Party Fighting.

The True Blues and Catholics of Peterborough have been indulging in repeated rows. The magistrate is endeavoring to suppress it. On Saturday he had four of them who were before him \$15 each.

## Slaughtering Crows.

As a general thing a crow is difficult to approach. At this season of the year they gather about farm houses in large numbers. It is told that a lad in Thurlo shot over a dozen in a day.

## Special Services.

The special services at the Tabernacle are still in progress. This is the fourth week. So far, there have been seven conversions.

## Dismissed.

Ann McCudden charged Robt. Armit in the Police Court with using abusive language. The case was dismissed.

## Sent Up.

Jas. Boyle, a drunk, was fined \$4.00 or 30 days. He went up.

## Whetting.

Whetting, playing solitaire from Astoria, was fined \$4.00 or 30 days. He went up.

## Amusements.

Salisbury's Treacheries turned up at the Academy last night none the less brightly for their journey in a snow drift at Stantwood the previous night and were welcomed by a splendid audience. The plot of "The Humming Bird" is too involved to be grasped readily, but the enjoyment of the play is only fortuitously in no dependent upon appreciation of the plot. It is sufficient that it affords scope continuously for sprightly acting and diverting situations. There is not a dull moment throughout the performance.

When the house is not laughing at the antics of Nellie McHenry it is generally laughing at the drolleries of Mr. F. B. Blair. The showman is a good one all round, and the shrewdness of its stay in Montreal will be the occasion of much regret.—Star. Belleville Open House Saturday night.

## Mr. L. W. Burke Made Inspector.

Mr. L. W. Burke, formerly Head-master of Foxboro School, has been appointed Inspector of Agencies of the Standard Life Assurance Company for the District composed of the city of Kingston and the Counties of Frontenac, Leeds, Grenville, Dundas, and Lanark. The Company will find Mr. Burke well informed, straightforward and energetic young man, and we extend our congratulations to him upon his remunerative appointment. Mr. Burke leaves to-morrow for Brockville, where he will in future reside. He will be joined by Superintendent Hunter, of Montreal, who will make a trip with Mr. Burke through the District and introduce him to the agents in his Inspectorial, who will find him an obliging and courteous official.

MONDAY, April 4, 9 a.m. Maximum 40; minimum 34. Barometer 30.17.

## Electric Light.

The proprietors of the Belleville Electric Light Company have made all the necessary arrangements for lighting Front Street by electricity. As soon as the posts can be erected, the first lot of ground yet the street from the depot to the wharf will be illuminated. The company hope to commence post-planting next week.

## Suddenly Ill.

Jas. Broad, who is tenant of a farm owned by Mr. Wallbridge, across the bay, was taken suddenly ill of congestion of the lungs while in the city on Saturday. A mattress was secured and he was taken home.

## Selling Out.

The household effects of Mr. John Brenton will be sold at public auction to-morrow. Mr. Brenton has sold the house. He intends to build during the summer.

## Good Friday.

Friday of this week will be observed in the Bridge street church. A sermon commemorative of the crucifixion will be preached by the pastor in the morning.

## Sporting Notes.

"America," a talented contributor to the Spirit of the Times, is of opinion that the Thistle will defeat any of the American shows, because she will be much more powerful and warlike.

The St. Lawrence, Minnesota, and Wisconsin have established speed duck shoot.

The latter Harry Wilkes (noted angler) has secured, 214, at San Francisco, on Saturday, and lowered it to 2134 at the first attempt.

The cutter Bedouin and the new sloop-cutter Estancia, both of New York, have been matched to sail for a pint of gold dollars.

It is definitely announced that a New York yacht is to build a yacht especially to meet the Thistle.

The sail area of the Galatia is to be increased, and she is to be entered for all the regattas in England she has time to sail in.

All previous records in the rapid construction of horsehoes were beaten Friday night by John Tunney, of Chicago, in a match with Mark Walsh, also of Chicago. The previous record was that of Dunn, at Detroit, 100 horses in 1 hour and 17 minutes. Tunney made his 100 shoes Friday night in 1 hour, 12 minutes, and 15 seconds. The first shoe was completed in 22 seconds.

## SATISFIED CONFIDENCE.

J. R. H. Girard, of St. Edwidge, Clifton, P. Q., says: "I am well satisfied with the use of Birkbeck's Hair Balm. It has cured me of dandruff that I had for three years. I used five bottles and shall tell every man I know that may be attacked with similar sickness, and should not be afraid to guarantee every bottle used."

## Labor Notes.

The carpenters of Chicago, to the number of 6,500, were to go out on strike this morning. Three months ago the Carpenters Council gave notice to employers that at the beginning of April the men would demand 35 cents an hour, eight hours to constitute a day's work. Wages have been averaging 35 cents and a day's work from eight to ten hours.

The hotel builders and their laborers have settled on a basis of 18 cents per hour.

## Bismarck's Birthday.

Bismarck, April 2.—Yesterday being Bismarck's 72nd birthday, the Chancellor received numerous tokens of esteem from all parts of Germany. The Chancellor visited the palace, where the Emperor awaited him. In his passage along the Unter den Linden, Bismarck received an ovation.

## Constable Durney Dismissed.

DURIN, April 2.—Constable Durney, who threw down his arms and refused to obey orders and take part in the arrest of Father O'Connell, the Horsham branch of the National League, has been dismissed from the force. The government have decided not to prosecute him.

## Russia Won't Assist.

LONDON, April 2.—Russia has declined France's invitation to participate in the Exhibition to be held in Paris in 1889, on the ground that she cannot assist to celebrate an event so distasteful. Russian subjects are forbidden to send exhibits.

## TENDER GUNS.

Soft coral, coral of all kinds removed without any or some spots by Putnam's Painless Coral Extractor. Thousands testify that it is certain, reliable, and prompt. Do not be imposed upon by substitutes offered for the genuine "Putnam's Extractor." Sure, safe, harmless.

## Magazine Bitter Condemned.

LONDON, April 2.—It is stated that prominent Russian military officers have condemned the magazine rifle, and favor the retention of the American Berdan rifle with small caliber, pressed powder, and steel pointed bullets.

## May Lead to War.

LONDON, April 2.—The expulsion of M. Antoine from Alsace-Lorraine has given rise to an uneasy feeling in all the capitals of Europe. It is feared that it will lead to fresh complications.

## The Government Too Strong.

LONDON, April 2.—Although Mr. Gladstone and Mr. Parnell will make a strong fight against the Coercion Bill, it is believed the Government will carry it through easily.

## Going to Stick to Each Other.

VIENNA, April 2.—Bulgaria and Serbia have arrived at an entente cordiale. The arrangement includes military convention. Roumania will probably join in the agreement.

## Wants to Keep Them Dark.

CONSTANTINOPLE, April 2.—The Sultan has forbidden the publication of any news concerning the Bulgarian troubles by the papers here.

## DANGER OF DELAY.

If we were allowed to look into the future and see the fatal consequences that follow a delay, how differently would our course be! We could see a cure, but with many it is only when the monster disease has fastened its fangs upon our lungs that we are aroused to try. What follows a neglected cold? It is not a cough, but a disease, bronchitis, pneumonia, and many other diseases of like nature. It is a deadly madness to neglect a cold, and it is a folly not to have your good remedy available for the frequent complaint. One of the most efficacious medicines for all diseases of the chest and lungs, is Bickel's Anti-consumptive Syrup. The medicine is composed of several medicinal herbs which exert a most beneficial influence in curing consumption and other diseases of the lungs and chest. It promotes a free and easy expectoration, and drives the disease from the system.

WANTED, AGENTS.—Male and female: \$3 a day. Apply to J. Morgan, Belleville, Ontario. G. K. KORT, 46 & 48 Front St. E., Toronto.

## Terrific Railway Collision.

ST. THOMAS, Ont., April 2.—This morning on the Michigan Central between Springfield and here a terrible collision occurred, resulting in the instant death of a brakeman. An operator who failed to put out his signal seems to be at fault. The oldest railway men say they never saw a wreck that could equal this one. Trains, cars and locomotives are broken into splinters and piled up on the track forty five feet high.

## To Invite Canada.

ST. PETER, N. B., April 2.—Gabriel Dumont, the military genius of the Riel rebellion, who is now in this city, says that his son had written to him from San River asking his advice regarding an invasion of Canadian territory. "Homes and everything were at their disposal."

## DIED.

In Brooklyn, on Friday, April 1st 1887 Alice Grace St. Lawrence, daughter of James McLean, aged 1 year, 5 months, and 10 days. Buried in the cemetery on the 4th day of April, from Mr. James Craig's residence, corner of Front and Dundas Streets. Friends are respectfully invited.

## ROYAL MAIL.

ROYAL MAIL. The following are the times of the Royal Mail Steamships, leaving Belleville for Montreal, N.Y., and other ports.

St. Paul, Minn., April 2.—Gabriel Dumont, the military genius of the Riel rebellion, who is now in this city, says that his son had written to him from San River asking his advice regarding an invasion of Canadian territory. "Homes and everything were at their disposal."

## SEEKING POWDER.

## NEW DRESS GOODS.

LATEST STYLES! NEWEST COLORS!

## Selling Fashions.

**Geo. Ritchie & Co.'s Display of Millinery**  
One of the events of the season, one that is anxiously looked forward to by the fair sex of Belleville, is now a matter of history. Fond anticipations are invariably realized at this establishment. Mr. Ritchie, having just returned from a protracted stay in the markets of London and Paris, is able to place before his customers the most popular patterns in hats and bonnets in vogue there, while Miss Andrews, the artist of the millinery display, has just returned from New York with the latest American novelties. The firm's show-rooms to-day give customers and callers a miniature exhibition of the prevailing fashions at the most important and fashionable centres of the globe. It was a sight well worth seeing.

Bonnet shapes are varied in quality and style. They are mostly trimmed with flowers being prominently used. Gossamer, lace, and ribbon, and all with very pretty fancy edges, are also used in abundance. In ladies' hats, and children's hats there seems to be a bewildering variety of styles. Most of these are also trimmed high. Feathers, plumes and aigrettes are more used in hats than in bonnets, and very pretty styles are produced with combinations of ribbons and gauze, while the novelties are rich in the ornaments. Nearly every color is more or less in vogue this spring, still there appears to be a decided leaning toward the more delicate and softer tints. Some of the prettiest fashionable shades are known as heliotrope, Charles the tenth, Goshawk lead grey, wood brown, etc. Space does not permit of a description in detail, but many pronounced the display as elegant and exceedingly fine, several of the most popular articles being produced in the firm's own workrooms. Miss Andrews having secured, this season, several young ladies who are very clever artists in modeling and designing.

Ladies' gowns are also exhibited in the show-rooms. For dress, the dolman, dolmanette and visote are worn. Jet trimming is very prominent on these, combined with lace. There are also very pretty, very neat, short, close fitting jackets in both black and colors. There are also many new shapes in house dresses. Miss Johnston is in charge of these, also ladies' underwears, knitted shawls, corsets, etc. The general sales room is heavily stocked with seasonable goods. They have a fine line of French dress goods, washing material, both white and colored for summer use. Parasols for the season contain many novelties in shape, but are very pretty. The stock of house furnishing goods is the most complete in the city, the supply of curtains, curtain poles and ornamental window fittings being most complete. The second floor is filled with carpets, of which there is a large assortment of fine and common goods.

The gent's furnishing department is well equipped with dresses, underclothing, ties, and other staple goods. This department is under the management of Mr. Hudson. The firm of Geo. Ritchie & Co. is known throughout the country for its enterprise and push, and its patrons will be pleased to learn that it is entering on the trade of the season with, if anything, a greater and more varied stock of goods than it ever carried before.

**Miss Tilney's Opening.**  
Tastefully Arranged Show Rooms—Fits to attract the eye and please the fancy. Miss Tilney's millinery parlors will come favorably with any. She devotes her time exclusively to millinery and fancy work and is steadily growing in popular favor. Her lace and ribbon hats, and her new Bridge street and now occupies more commodious rooms on Front street, near A. N. Reid & Co.'s. The goods on exhibition to-day were mostly her own make, and for the latest fashioning of colors, general neatness and reasonableness in price will compare with any in the city.

Bonnets are of all shapes and sizes, trimmed high and narrow, after the prevailing French styles. Hats are high, and large and small to suit the features. A new shape, the Jockey, is very pretty. Turbans, small and close, are much worn. Materials in trimmings are gauze, lace, light fancy velvet, &c. Ornaments this spring are large and small, to please the fancy, several new novelties being introduced. A few of the new styles of hats are already appearing. The excellent display was well complemented. The fancy work seemed to attract particular attention from its neatness of design and good execution, a new panel and mantle dress being particularly admired. A few of the new styles of hats are already appearing. The excellent display was well complemented. The fancy work seemed to attract particular attention from its neatness of design and good execution, a new panel and mantle dress being particularly admired.

**F. Jones' Millinery Opening.**  
The new millinery shop rooms of W. Flint Jones have been through with ladies the last two days, those being the first "opening days" of this new house. Judging from the elegant display made and from the unanimous opinion of the ladies, Mr. Jones has evidently made a decided "hit." Miss Robertson has charge of the rooms and she has well sustained the reputation she enjoys of being one of the best milliners in Ontario. Mr. Jones says he is determined to earn a reputation for having as good and fine millinery as can be found anywhere. Among the newest styles in bonnets are the "Paris," "Daisy," "Dandy," "London" and "Daisy," and in hats the "Bouffant," "Toboggan," "Yours," "English you know," "Fleetwing," "Vivian" and "Darling" are the most popular styles.

Flowers and feathers are very popular and a fine show is made of these goods. The new styles in ribbons and trimmings are very new, heliotrope, boreal

hambro, pinto and bay. The pompadour and other ornaments are popular of special attention. Bonnets are still popular and are freely shown. The show-rooms looked very pretty, being a mass of very coloring natural and artificial flowers, feathers, &c., being tastefully arranged. In children's and miss hats and bonnets a fine show is made. In all the other departments this house makes a fine exhibit. Their dress goods, prints, muslins, &c. are very stylish and pretty, while in gloves and hosiery they show exceedingly fine goods. We congratulate Mr. Jones on the success attending his first opening and predict for his business a successful future.

**"Hindoggers."**  
Press notices of Gilbert & Sullivan's latest comic opera "Hindoggers, or the Witch's Curse," which was produced at the Savoy Theatre, London, in the course of January of this year, and more recently at the Fifth Avenue Theatre, New York, are now in order, and the musical forces of this continent and the public generally will be wanting to know what they may expect. We have cast a glance over the new composition and will say that if there be any thing in a name, "Hindoggers" is full of meaning—full enough to satisfy the thirst for a combination of the most fashionable in the musical world. The general impression left us, however, is very favorable. The words of the libretto, as a whole, appear well adapted to the various situations and the harmonies are happily conceived.

The musical portion, on the other hand, abounds with pretty passages, revealing in some of the melodies the parent source of the Mikado. The numbers which pleased us most were the Recit. and the Aria in Part I, and the duet and chorus (Rosa and Richard), trio (Margaret, Robin and Sir David) in Part II. The finale in both acts stands out prominently and the finale in the first act is a pleasing, fresh and taking character.

We shall indeed be surprised if the joint and popular authors of "Pinafore" and "Mikado" do not make this new venture a great, if not a greater, success than they did their former productions. The libretto and vocal score are published by the Canadian Musical Publishers' Association of Toronto, and are for sale at the book stores.

**The Scott Act in Campbellford.**  
The Council met on it.  
At the last meeting of the Campbellford Council the following resolution was carried unanimously:—

"Moved by Councillor Walker, seconded by Councillor Kent, inasmuch as the Scott Act has seriously impaired the revenue of the village and has not produced the results anticipated by its promoters, Resolved therefore that this Council discontinue the Scott Act for the purpose of the present year."

A petition is being largely signed throughout the Riding asking for the repeal of the Act.

**"THE AMERICAN ANALYST."**  
Says of Fumery's Petrolol "Patent": "A very careful examination has led to the conclusion that the results are not as good as claimed to be by the promoters. Sold by drugists and R. Templeton, Belleville."

**County Court.**  
County Court without jury, at yesterday before Judge Lusk. McTaggart v. Foley was the only case heard. The plaintiff, Leonard O'Brien for debt, the defendant being the well known Pat Foley.

**Obituary.**  
We regret to learn that Mrs. Lucy A. Purdy, relict of the late Gilbert Purdy and mother of Mr. T. H. B. Purdy of this city, died on the 3rd inst. at the residence of her daughter, Mrs. Rutan, Sydenham. Deceased, who was aged 80 years, was a long resident of the township of Kingston. She leaves a family of five surviving her. The remains will be interred in Canby cemetery.

**An Apology.**  
To the hundreds that we were unable to show goods to on Saturday, we have to apologise. The sale continued 30 days and we must close out the whole stock of hats and goods that we had on hand. Again we will get what you want. Lusk & Meyers.

**A STATISTICAL DISCOVERY.**  
A startling and important discovery was made when, after long and painful experiments, the combination of the letters "A" and "B" was found to be the most perfect. A grand victory, indeed, for the suffering have an ever ready, prompt, efficient, cheap remedy at hand. You know that for 10 cents you can buy a trial bottle of Dr. Williams' Pink Pills and test its great power over every description of disease. It is a discovery that will revolutionize the medical world. Sold by drugists and country dealers.

**Another Fire in Trenton.**  
A fire occurred in the elevator near the bridge at Trenton last night, but happily it was discovered and extinguished before serious damage was done. It is supposed that this fire was caused by a spark from the configuration at the Daily House stables in the morning.

Derry Lodge No. 30 will meet to-morrow night in their hall to transact business of great importance. A full attendance of the members is required.

We'll wonder in the marvel of heat last night. It is a very good thing. Always try it in the house. All drugists.

## A Choral Union Evening.

A highly interesting evening was spent on Monday last by the members and a number of the friends of the Belleville Choral Union, at the practice hall on John St. An excellent programme, musical and literary, was presented, reflecting credit upon the organization. Mr. W. E. Howell filled the chair most acceptably. The vocal quartet, a class of "The Come" by Messrs. Canfield, Lewis, McCullough and Ashby was spirited, and well given. The duet sung by Miss Mary Clarke and Mr. Canfield, entitled "The Magician's Song," was very pleasing. A very interesting reading from "Miss Standish" given in nice form by Miss Terrell, added materially to the pleasure of the evening. The duet by Mrs. Ingram and Mr. Canfield was of good quality, being sung in a nice manner. Mr. F. G. Lewis' recitation produced a most favorable impression. Miss Richardson and Mr. Canfield sang the duet "James" in excellent style, and were the recipients of considerable applause. Mr. McCullough's reading, "The Skovvipes," was true in nature. Mr. Canfield's reading, "The Skovvipes," was true in nature. The programme concluded with a beautiful quartet, "Come where the Lilies Bloom," by Messrs. May, Canfield and Wesley and Messrs. Lewis and McCullough. The choral singing was well served to those present by the ladies of the society, and it is needless to add that this musical and literary portion of the entertainment.

It must be pleasant for Prof. Canfield to find that all his former associates with the organization at its inception still retain their connection with the union. This reflects great credit upon that organization, and new fees are payable by old members, the amount received from new members on entering and new members from the same.

The union is quite young but is strong and growing rapidly, financially as well as numerically. About a dozen band members in their names to the Secretary on the evening of the meeting, and with the great enthusiasm displayed by the members there is no doubt that it will keep on growing.

**A GOOD MOTIVE.**  
Harry Blaisdell of Toronto, agent for Fine Art Publications, states that he was so troubled with rheumatism, that he was unable to attend to business, until he tried Foley's Kidney Cure, which he found to be the best of all others.

**Sudden Death.**  
Mr. George S. Herchner, son of Mrs. C. Herchner, of this city, died suddenly at Andalusia, Pennsylvania, a few days ago, of heart disease. Many sensational rumors were circulated, and at the request of the relatives, we refrained from giving currency to any of these until the identity of the deceased was established.

Shortly after 3 p. m. to-day Mrs. Herchner received a telegram from Mr. Gilderale at Philadelphia, stating that the body of this brother-in-law, George S. Herchner.

The Toronto World says: "Last yesterday it was made certain that George S. Herchner in the man found dead at Andalusia, W. A. Mitchell's servant of Brampton, has identified the watch as belonging to Herchner, from the number 16, as a watch found at Philadelphia. The ring mentioned in the telegram as worn by the deceased was also found for him by Mr. Mitchell."

The feeling in Brampton over the affair is one of deep regret. Mr. Herchner was universally liked, and his cheerful disposition endeared him to many households. His friends he distributed gifts with a princely generosity; money had, in fact, no value, and his conduct in this respect may be most aptly described as eccentric. Prior to his assuming the management of the Central Bank in 1881, he had been connected with the Merchants' Bank and to his business ability and the trust standing of the Central is chiefly ascribed. His suspension from the bank's management about a fortnight ago, proved upon his mind, and he spoke in despondent tones of going to Texas. Whatever difficulty he had with the bank was undoubtedly adjusted through his friends. Several years ago he married a daughter of Mr. Robert J. Brown, a prominent cable broker of Brampton. Mr. Craig returned yesterday to Brampton after several days absence, and learned that the first time he reached the city, his son-in-law's death. Mr. Craig was completely overcome at the unexpected news, and he has been in bed since. His relatives have taken steps to have the remains identified. Mr. Gilderale left Kingston yesterday for Philadelphia, which city he should reach this morning.

An acquaintance says Mr. Herchner carried a small portfolio in his trunk, containing, one being of \$5,000 in the Accident. The total amount is supposed to be between \$10,000 and \$15,000. The post-mortem examination shows that Herchner did not meet with foul play but died from degeneration of the heart. There is no doubt now about how deeply he took to Andalusia; that part of the mystery has been cleared away. He was suddenly taken sick on the "Owl" train from New York, which stopped near Andalusia at 3:30 last Thursday morning on account of a freight wreck at Boria's station. He got off the train evidently to get the fresh air, and fell down beside the track. The train proceeded on its way, and Mr. Herchner expired as described by the section men, who found him lying in the tracks of the death.

Deceased, who had not for a number of years resided in Belleville, was a gentleman of excellent parts, and was highly esteemed by those who knew him. We tender our sympathy to the afflicted relatives.

The Knights of Labor carried the municipal elections in Dubuque, Iowa, on Monday.

Five negroes were lynched at Yorkville, S.C., yesterday morning for murdering a boy who had informed them about stealing from fields.

The steamer Spokane, with twenty passengers on board, capsized on the Coast of Alaska River, Utaho, yesterday. Five men are reported lost.

A train on the Northern Railway was thrown off the track by a landslide yesterday. Several cars were wrecked but happily no serious harm was sustained by train bands or passengers. In connection with the recent failure of the Maritime Bank, it is reported that the directors of exchange, which passed between the Montreal firm, Guy, Hovan & Co. and the bank, were outwitted by loans under the name of the company of the three companies. SLEEPLESS NIGHTS made tolerable by that terrible cough, Smith's Cure is the remedy for you. For sale by R. Templeton.

## The Late Cheese Market.

(Ultra Herald.)  
There is no diminution of strength in the cheese market, as the account of stock on hand shows. Only 2,000 boxes of cheese were sold at 45¢ a year ago, and 60,000 a year ago. The stock in Liverpool is also somewhat smaller than last year. It has been compared with 91,000 in 1886, and 88,000 in 1885 at the same date. The receipt in New York since May 1, 1886, have amounted only to 1,227,000 boxes, against 2,047, 375 boxes for the same period the year before. The decrease has been 22,761 tons, or something over 11 per cent. As for the receipts since Jan. 1 have been only 135,000 boxes, whereas there were 200,000 for the corresponding period of a year ago, it will be seen that nearly one third of the shortage has occurred in the last three months. This makes the business outlook decidedly favorable. No uncertainty is felt among the present holders of cheese that the product should not be consumed. Home trade sales steadily along, buying, of course, only for immediate requirements, but the amount of business is sufficient to make the dealers feel easy. If there should be any surplus of old stock a month from now, exporters will readily take it at a very slight reduction from current rates.

Factories are now opening rapidly all over the country, and the supply of cheese will be increased. The market will be well supplied this week, and by the middle of the month nearly all of them will be under way.

Some cautions can never be repeated to our cheesemakers too often. The first of these is to keep up a steady growth of business. Don't send in green cheese the first opportunity in the spring, to cast the market on the make. A good grade of cheese should be sent, and the price should be paid to the patrons, cautioning them to feed such milk to the cattle as will produce pure butter. Keep the cheese clean and all the milking should be done in the cleanest manner. Butter depends largely upon the cleanliness of the dairy.

The New York Price Current says: Dealers see nothing in the situation to warrant them in adding to their stocks except where they are needed for immediate use. The market is quiet, and the price of hops is steady. The market is quiet, and the price of hops is steady.

## WHY THEY ARE NOT PURE.

The absolute purity of the Royal Baking Powder is a fact not questioned by anyone; but the questions are frequently asked: Why do not other manufacturers, also, put up pure baking powders, free from lime, alum, and other adulterants? Is it a fact that the Royal is the only pure baking powder made?

There are three classes of these articles: Cream of tartar baking powders, made from cream of tartar and bi-carbonate of soda; phosphate baking powders, in which phosphate acid is used as a substitute for cream of tartar; and alum baking powders, made from burnt alum and soda.

Burnt alum baking powders are of the cheapest class. They cost less than four cents a pound, are exceedingly poisonous, and because of their well-known inferiority are never sold under their true colors. Baking powders sold with a prize or gift are of this class.

The phosphate baking powders contain from 8 to 12 per cent of lime, which is an ingredient of the phosphate used in them as a substitute for cream of tartar. It is impossible to eradicate the lime from this class of powders. This baking powder is next to the alum baking powders in cost.

The cream of tartar baking powders, to which class the Royal belongs, to be pure must be made from absolutely pure cream of tartar. The Royal Baking Powder is made from cream of tartar specially refined and prepared for its use by patent processes by which the tartrate of lime is totally eliminated. There is no other process by which cream of tartar can be freed from lime—made 100 per cent. pure—in quantities practical for commercial purposes. Other baking powder makers, not being able to obtain these chemically pure goods (which are used exclusively in the Royal) are dependent upon the cream of tartar of the market, refined by the old-fashioned methods, for their supply, and by those methods it is impossible to eliminate the lime and other impurities.

These are the reasons why the Royal is absolutely pure, while all other baking powders contain either lime or alum. The vital importance of absolute purity in the articles we eat as promotive of perfect health is daily more generally being considered. How large a share in producing impure and unwholesome food the lime and alum baking powders have had in the past, is becoming fully recognized.

The absolute purity of the Royal Baking Powder not only renders it more perfectly wholesome, but its freedom from all extraneous substances makes it of higher strength and effectiveness as a leavening agent, and therefore more economical for use. It is accordingly certified by the U. S. Government Chemists as the most wholesome, effective, and perfect baking powder made.

## TRENTON ENTERPRISE

An Inspection of Gilmour & Co's Milling Property.

THE TRENT WATER POWER—THE BEST IN THE PROVINCE.

THE GROWTH OF THE TOWN SINCE INCORPORATION.

Substantial Improvements in the Business Centre in the Last Two Years.

Railroad and Educational Institutions well represented.

Trenton, incorporated as a town in 1861, with a population of 3,042, a property valuation of \$400,510 and a rate of 23 mills on the dollar, has been advancing with rapid strides. Situated at the mouth of the Trent river, with a never failing water power at the back of it, and at the head of the bay of Quinte, it has advantages which must excite the envy of less favored places. In 1863 an official census of the town was taken, showing the population to be 4,224, an increase of nearly 1,200 in two years. In the year 1886, according to

the assessor's return, the number of inhabitants was shown to be about 5,000, and the place is still growing.

THE VALUATION OF PROPERTY in 1886 was \$778,150 with a rate of 11 mills on the dollar for municipal purposes, and 14 mills for school purposes. The receipts were \$28,072.47, expenditure \$26,282.03.

In 1886 the valuation was \$902,405, rate 13 mills for corporation purposes, and 14 mills for school purposes. The receipts were \$80,841.01, expenditure \$74,432.50, sinking fund \$2,450, debt \$10,000, \$2,500 maturing in April 1895, \$10,000 maturing in Dec. 1898, and \$25,000 maturing in Dec. 1900. The floating debt is \$51,797.28, less \$19,432.97 in cash and outstanding debts, making a total debt on the town of \$97,363.31, at 4 per cent. interest.

The principal industry of the place is the GILMOUR & CO'S lumbering interests, under the management of David Gilmour, Esq. The property owned by him and utilized for lumbering purposes lies along the east bank of the Trent river and extends north from the shore of the bay of Quinte to the Grand Trunk railway tracks, a distance of two miles or upwards. At the mouth of the river, and on the bay shore, where there is ample dockage, are located the lumber mill, lumber mill and shingle mill, machine shop, engine houses and fire department sheds. The lumber mill, commonly called the "Big Mill," has a capacity of 350,000 feet of lumber and inch and a half lumber per 10 hours, cut by gang and circular saws. The timber mill turns out 50,000 feet of ordered stuff daily for builders, and the shingle mill equipped with the best machinery, cuts 125,000 shingles per day. 400 men are employed in these mills. Mr. Gilmour has a complete

LINE OF RAILWAY running the entire length of his property, through his lumber yard. These yards have storage capacity for 400,000 feet of lumber. The railway has connection with the Grand Trunk and Central Ontario railways. By the use of the yard engine empty cars are brought from either of the roads mentioned, loaded in the yard and returned to the railway company ready for shipment.

The big mill is driven by a 1,500 horse power engine, steam for which is generated by 16 boilers. A 350 H. P. engine drives the shingle mill. Connected with the mills is a

CONCRETE ELEVATOR. A commodious brick fire shed has been erected at the water's edge, between the two largest mills, with stables, engine room and quarters for the men. The fire company is composed of 25 uniformed men. They have charge of an Amoskeag steam fire engine, purchased in New Hampshire at a cost of \$6,000. Besides the steam engine there is a fire pump in the engine house connected with a 15 inch pipe which leads around the different mills and through the yards. This pump can throw 15,000 gallons per minute. There are 10 hydrants outside the mills and 18 inside. An electric fire alarm system, 10 bells, connects several principal parts of the yard, with the fire department. The fire company is organized into what is known as the Gilmour fire company band. At the north end of the property, near the new dam, is situated

THE PLAYING MILL. This structure is run by water power. As present it has four players of the latest and best make. There is room in the building for five more. The mill has a capacity for planing 30,000 feet of lumber per day. The combined mills manufacture all that is necessary for the construction of a house, except sashes, blinds and doors.

At the head waters of the Maita and Otonabee rivers there are extensive timber limits. The Central Ontario Railway also taps one of the Company's limits.

The equipment about the premises are complete in every respect. The mills are said to be the best of the kind in the world—far superior to those in the great lumbering States of Michigan.

THE TRENT RIVER. Trenton boasts of one of the finest water powers in Ontario. Just below the Grand Trunk railway bridge over the River Trent,

and within the corporate limits of the town, a substantial dam has recently been constructed at a cost of not less than \$70,000. The work was done under contract by Gilmour and Co., for the town, each expending half that sum. The dam gives a head of 17 feet. The supply of water is almost inexhaustible. The half of this power on the west side of the river, the town has an absolute right. A large dam will pass through their water lots. By the intention of the corporation to utilize a portion of the power for water works, and the readiness to be offered to manufacturers on advantage over terms to be established and establish various industries. Over the dam is constructed a railway and trestle bridge, which is now in daily use by Gilmour & Co., who run cars over it to and from their mills to connect with the Grand Trunk railway. All manufacturers who purchase water power will be entitled to the use of the bridge. It is said to be the intention of the town corporation to use a portion of the power as a motor for electric light, with the view of lighting the streets by electricity and lower the present rate to consumers. The prospects that Trenton will eventually become a great manufacturing centre are most encouraging.

The British tramp steamer Carnarvon, which left Barrow in England Feb. 23, has not yet arrived, and is given up as lost with all on board. She had a full cargo of steel blooms, consigned to a firm in Pennsylvania. The vessel had a crew of thirty-three men. The vessel and cargo were valued at \$300,000, and are fully insured.

GOOD NIGHT.

The table is set, the wine is served.

The evening meal is over.

And so the weary day is done.

The busy hours have been

when we were so busy.

Their busy lives and happy hearts

are full of contentment.

The weary day is over and the

peaceful night is here.

The stars are shining brightly

BOARD of Education to-night.

WATER in the river is falling.

The flood along Mairs street has subsided.

The time for scraping Front street is at hand.

The Dominion Parliament will meet to-morrow.

BOAT BUILDERS are getting ready for the coming season.

Dr. Ackert's Linctant can be found at Goen's drug store.

Another marked change in the weather—It's much colder.

R. T. B. is the medicine to get your liver and kidneys.

Nails in sidewalks want driving in, and the walks should be ballasted.

If you want a good Hair Restorer enquire at Lattimer's barber shop.

There promises to be a good attendance at the Oratorio of Ruth on Thursday.

20 chairs wanted at once at A. R. Fish & Co's Shirt Factory, 10 Fishers and 10 machines—A. R. Fish & Co.

2 BEAUTIFUL, expensive, lace curtains, lamprequeins, table linens, napkins, fancy quilts, cheaper than at Henry's.

BOUND to sell—Lazier & Meyers are obliged to close out the entire stock of hats in 30 days. Hats cheap—cheap!

We have an immense quantity of tweeds suitable for boys' and men's wear, which we must sell and will sell cheap—J. Henry.

PROFESSOR Macoun, of the Geographical Survey, has left Ottawa for the Pacific Coast, where he will spend the summer in botanical research.

A GREAT rush for cheap hats at Lazier & Meyers' closing out sale. The store crowded and people astonished at the great bargains offered. Now is the time to get a fashionable hat for about half price.

Catarh, when chronic, becomes very offensive. It is impossible to be otherwise healthy, and at the same time afflicted with catarrh. This dangerous disease, in its most extensive and dangerous form, can be cured by the use of Ayer's Serrapilla.

## Local Notices.

In future local notices in the INTELLIGENCER will be charged fifteen cents per line in each and every case when notice any entertainment to which an entrance fee is charged.

## Personal.

## ON FOR OTTAWA.

Messrs. S. B. Burdett, M. P., Alex. Robertson, M. P., and Hon. Billia Flint have left for Ottawa. Parliament will open to-morrow.

## Makes a Difference.

There was no electric light on Front street last night. The absence makes a difference in the illumination.

## County Court.

The County Court, without a jury, is in progress to-day.

## CANADIAN CLIMATE.

The Canadian climate is particularly productive of Gold in the Head and Catarrh. In fact Catarrh is the most common ailment of the head, and the discovery of Nasal Balm places within the reach of all a certain means of cure.

## INDIAN AND COLONIAL MEDALS.

The Canadian Commissioners of the London Exhibition in the City.

Education of the deaf and dumb, the

18th inst.

S. P. May, M. D. C. L. H., the

commissioner, under the Ontario Government,

in charge of the exhibit by the Education

Department at the Colonial and Indian

Exhibition, London, was in the city yesterday

and to-day. Yesterday afternoon he

presented the diploma and medal awarded

to Albert College and this morning visited

the Deaf and Dumb Institute, where he

made similar presentations to the depart-

ments which had contributed to the London

Exhibition. At 10.30 this morning, Dr.

May, accompanied by Mr. John Johnston,

I. P. S., visited the High School, they were

met by Mr. W. Johnson, Chairman of the

Board of Education and the Rev. J. W.

Burke, M. A., Chairman of the High and

Central School Committee. Mr. Johnston

was requested to act as Chairman, and on

introducing Dr. May, referred to the great

services Dr. May had rendered as commis-

sioner from London, the Colonial Ex-

hibition, and the pleasure it gave them all

to welcome him on his pleasing occasion as

the presentation of medals and diplomas

from that great exhibition.

Dr. May briefly referred to the exhibi-

tion and the great interest taken by so

many of the over five and half millions who

visited the exhibition on the display made

by the schools and colleges of Ontario, and

the pleasure it gave him to present, on be-

half of the Minister of Education, the

medals and diplomas won by the pupils of

the High and Public Schools of this city.

He was specially pleased to do so because

Bellefonte High School had stood so high

at the art examination which had been

held.

Dr. May then thanked Dr. May for his

visit, and after a few pleasant and ap-

propriate remarks, he asked the school to

unite in singing the doxology.

Dr. May has compiled a very instructive

report on the present system of education

in England and the colonies. From this

report it appears that the privileges afforded

the deaf and dumb and blind in Canada are

far superior to those enjoyed by those simi-

larly afflicted in any other country of

the civilized world, and so far in advance

of the system in England that a deputa-

tion sent upon Dr. May, get information

from him for the purpose of laying the

knowledge, so gained, before the Queen

with a view towards legislation.

Mr. John Johnston, School Inspector for

South Hastings, was presented with a medal

and diploma by the Royal Commissioner for

the excellent manner in which he looked

after the schools under his control.

Dr. May met the directors of the Me-

chanics Institute yesterday afternoon. A

reporter dropped in as they were discussing

the subject of the Mechanics' Institute, the

doctor, seeing him taking notes, said to him:

"You may state in your paper that I

am much pleased to see the improvements

which have been made in the library and

reading room since my last visit. I have

strongly recommended that drawing classes

be established in connection with the In-

stitute, and have made suggestions

whereby the Mechanics' Institute can be of

practical benefit to the pupils of the High

School."

His suggestion in this respect was that

the books for use in the High School be

moved to the High School building and

that a library be formed. Members of the

## L. N. Benjamin, Q. C.

His Death After Two Months' Suffering

Shed His Life.

The Montreal Star says, in its issue of

the 10th inst.

After two months of suffering, borne

with the most patient heroism and pluck

Mr. L. N. Benjamin, Q. C., passed into the

eternal rest at his residence, 95 Mackay St.

Six weeks ago his medical advisers told him

that there was no hope of recovery for him.

The immediate cause of death was dropsy

induced by hemorrhage of the heart, caused

by the rupture of one of the valves. Mr.

Benjamin had been lying for the last

twelve months and had sprung back a typical

seventy years of age. He was in the city

to avoid the bad weather here at that time

and returned much improved. During last

summer his health was fair, but since last

autumn he had not felt so well and in

February last when only three weeks in the

office and visited it on the 21st of February

for the last time. Since then he has been

confined to the house and about three weeks

ago he suddenly took a dropical turn.

Since then it rapidly developed. He had

full possession of his faculties to the last.

He was born in London, England, about

forty-five years ago and came out

with his parents at an early age to this

country. They settled in Belleville. His

father was some years M. P. for North

Hastings, a very strong and prominent

Conservative and a most pronounced Un-

ionist. Mr. Benjamin was educated at

Belleville and Toronto and in 1863 took

the degree of B. C. L. at McGill College.

He was a partner of the Hon. J. J. C.

Abbott for some years, but afterwards

engaged for himself and gained a high

reputation as a commercial and marine lawyer.

Among his prominent cases were those of

Buttars v. H. A. Allan, H. A. Allan

vs. Buttars for \$50,000 damages, McIntyre

vs. Buttars and others. He took in Mr.

Benjamin was married nearly nine

years ago, in Philadelphia, to Miss Cole,

of Grande Ligne, Que., a sister of the late

Mr. A. McNeil. They have only one son

about seven years of age. His mother

still lives in Belleville and feels the loss of

her favorite son very much, in fact she is

not expected long to survive him.

Mr. Benjamin had seven brothers, one now

in business in this city and others in the West-

ern States.

His sufferings at the approach of death

were very great, and the death struggle

was long and terribly painful to witness.

(Mr. Benjamin's appointment as Q. C.

was announced on the day preceding his

death.—E. L. T.)

Without a Home.

Elizabeth Whitlaw, who has been time

and again committed to the County Jail

for vagrancy, was released from that insti-

tution this morning. Elizabeth is a tidy

looking woman, without friends or

money. Being advanced in years, she has

no one to look for shelter. She applied to

the Police Magistrate for commitment, and

was sent up for 30 days. She was armed

with the necessary papers, presented her-

self to the gaoler, and was locked up.

Light Receipts.

One load of peas was offered on the mar-

ket yesterday. It was the only kind of

grain that has been offered for some time.

Mr. Downey stated to a reporter to-day

that there was but little grain in the eleva-

tor to go forward at the present time.

Two hundred thousand bushels of barley

have been shipped by rail since the first of

## LATER VESTRY MEETINGS.

The Christ Church Vestry Adjourns

for Two Weeks.

There was a representative and harmoni-

ous gathering at the St. John Church Ves-

try meeting last evening. The financial re-

port showed the Church out of debt, the

constant living being made out during the

past year, besides a number of improve-

ments having been made on the church

building.

Mr. Hugh Macleod was appointed Reader.

Warden and Mr. John Pepples.

Mr. J. W. Brown was appointed lay

deacon to the Synod for the next three

years.

—E. THOMAS CHURCH.

There was a large attendance at St.

Thomas's vestry meeting.

A satisfactory financial statement was

presented. Mr. J. P. C. Hill was chosen

Reader's Warden and Mr. T. B. Vreese

Pepples' Warden. Messrs. Geo. J. Sherry

and G. McNeil Auditors.

The rectory offered to accept a loan rate

of interest on the rectory investment, viz. 4

instead of 8 per cent, and asked that the

By-law regarding this investment, \$2,400,

passed in 1863 be re-opened to provide

against the loss of all of either stock.

A motion embodying the spirit of the offer

and request was adopted. The original

salary was increased \$100 per annum; the

ladies and gentlemen of the choir were

checked for their services, and the Warden

were authorized to make and discount such

notes as may be necessary for carrying on

the building of the Sunday School rooms.

the Queen, and as an expression of dis-</

 BY "THE DUCHESS."

"You should not have told her that night!"  
 exclaimed Madeline, looking reproachfully  
 at Duran.  
 "Oh, it is better—much better," says  
 Madeline, "that she should know the truth  
 than that she should remain a moment  
 longer."  
 At the moment the door is thrown wide  
 open, and a tall man enters the room.  
 Lady Valworth looks at him with a  
 surprised expression. He is a stranger,  
 and she does not know him. He is a  
 man of about thirty years of age, with  
 dark hair, and a high forehead. He is  
 dressed in a dark suit, and has a  
 serious expression on his face. He  
 looks at Lady Valworth with a steady  
 gaze, and then turns to Duran.  
 "What is the name of this man?"  
 asks Lady Valworth.  
 "He is a stranger," says Duran.

**SCROFULA**  
 I do not believe that  
 Ayer's Sarsaparilla is  
 equal to a remedy for  
 Scrofula. It is a  
 powerful medicine, and  
 produces a more  
 permanent, lasting, and  
 healthy skin than any  
 other medicine.

Joe Gray's thin hands clutched almost convulsively at the coveted life. "You're too good! Would you—much—mind—leaving—me! You—know—I'm—going—away—soon." Joe's weak voice trembled, and his shining tears fell like heavenly dew on the fragrant blossoms.

Miss Jerusha's answer was given without hesitation. "One—two—three, with an earnest tenderness which fully satisfied the poor boy's heart.

"Others are waiting, Joey! I'll come back and talk to you soon." Then Miss Jerusha passed on, her blossoms, her cheery words and her delicacies leaving light and joy, wherever she went.

She came back to Joey after a while.

BEVERLY, TUESDAY, APRIL 26, 1887.

MISREPRESENTATION AND UN-TRUTH.

It seems to be impossible for our political opponents to discuss fairly the Government, any action of the Government, any action of the Government.

For example, the Hamilton Times and its issue of Saturday.

Notwithstanding the correct protest to the contrary of the Times in the recent local and Dominion elections, the Hamilton Times has not been abolished in the Kingston Peninsula.

The report of the Minister of Justice as to Penitentiaries has been published.

The contract for convict labor at Lockport, which Mr. L. B. Spence, expired on the 30th of June, has been renewed to employ about twenty convicts at the price per day, in order to build work which has been incomplete on the expiry of the contract.

This statement clearly shows that the Dominion authorities are in no hurry to put a stop to convict labor, much though the Dominion Government, through the Ontario Government, is making the making of convicts in the Central Prison till the present time.

The Times probably knows the character of its readers better than we do; but they must be very stupid or deeply prejudiced people if they do not perceive that the Times' statement that "convict labor has not been abolished in the Kingston Peninsula" is a falsehood, which is directly contradicted by the evidence before the Kingston Penitentiary, which is directly contradicted by the evidence before the Kingston Penitentiary.

The report distinctly states that the contract expired on the 30th of June last, and that it was never renewed nor intended to be renewed as shown by the further evidence before the Kingston Penitentiary, which is directly contradicted by the evidence before the Kingston Penitentiary.

As to the former, the Kingston Penitentiary has been allowed the services of about ninety convicts to finish work which had not been completed when the contract expired.

Does this bear out the Times' assertion? No, it does not. It simply shows that the Dominion Government acted in a spirit of fairness to this contractor, that he was treated with the same consideration as is accorded by the license commissionaires in Ontario to tavern keepers, when license have been decided not to renew, namely given a reasonable opportunity to get rid of their stock in trade.

The Times is also disingenuous in its allegation that the Government "party have 'hoarded' for the storage of the making in the prisons under the control of the Ontario Government before the expiration of the existing contracts. What was demanded, and what some of the organs of the Ontario Government—some amongst the number, we think—restrained, was that the competition of prison labor with free labor should be brought to a close as soon as the existing contracts expired. That that demand, although opposed by a considerable portion of the party, was in tune with public opinion, was shown by the insertion of a promise in accordance therewith in the speech with which the Legislature was opened, and the passage by the Legislature of a resolution in accordance therewith. That the subject was deemed by the Government to be of great importance is shown by the insertion in the proposition of the following paragraph:

I heartily approve of your resolution to bring to a close as soon as practicable the system of letting prison labor by contract, and I trust that there may be substituted some alternative method, such as the objection, which, while securing employment for those confined in our jails, will also provide that salutary discipline, which is a labor of the State.

The Times will find that the more this subject of prison labor is treated, the more discreditable will be the conduct of its party agents, and all the falsehoods which it can manufacture and all the misrepresentations which it can invent will not blind the public to the facts of the case.

EDITORIAL BRIEVES.

In a recent speech in the Quebec Legislature Premier Mercier said:

His Government had been attacked for appointing Mr. Chaberton to investigate these friends on the ground that he was an Orangeman and a Free Mason. He did not know that being a Free Mason was a reason why he should be employed by the Government, but if he knew him he was an Orangeman he would not retain him.

He declared that Mr. Chaberton was an Orangeman.

The large majority of the Orangemen in the Province of Quebec have for many years been Orangemen. They have rendered great service on many occasions to the Regu party. Mr. Mercier is, now that his party are in power, evidencing their gratitude to their long-time most consistent supporters.

We publish, in other columns, extracts from the exceedingly able speech of Mr. Dalton McCarthy, M.P., in the Dominion House, Mr. W. R. Meredith, M.P., in the Legislature on the Irish question. The facts stated and the arguments advanced by these gentlemen are worthy of grave consideration.

No "Never Satisfied Again."

No "hardly ever" had an attack of what people call "bitchiness" and to smile was impossible. Yet a man may "smile and mind" and still, still, still, he was no villain, but a plain, blunt, honest man, that needed a remedy such as Dr. Pierce's "Purifier" or "Felix," which never fail to cure biliousness, indigestion or torpid liver, dyspepsia and chronic constipation. Of course, if you are not a sufferer from these ailments, you need not take Dr. Pierce's "Purifier" or "Felix." It never fails to cure.

Executive Official Income.

Mr. Meredith on Friday made an unflattering protest against the proposed abolition of the York shrievalty, on the ground that the principle adopted in the case of registrars and division court clerks of returning to the public all fees above the amount necessary to give them the simple remuneration, should be adopted to divide the office of Sheriff. To regard the office, the duties of which could well be performed by one man, given to the lucky office-seekers the amount which ought to be handed over to the country.

**The First Sign**  
Of falling health, whether in the form of Night sweats and Nervousness, or in a sense of General Weakness and Loss of Appetite, should suggest the use of Ayer's Sarsaparilla. This preparation is most effective for giving tone and strength to the exhausted system, promoting the digestion and assimilation of food, restoring the nervous force to their normal condition, and for purifying, carbolizing, and vitalizing the blood.

**Failing Health.**  
Ten years ago my health began to fail. I wrote to several of the leading Physicians, Night Sweats, Nervousness, and Nervousness, and they all advised me to use Ayer's Sarsaparilla. I tried it, and I found it to be the best medicine I ever used. It gave me a new lease of life, and I am now in perfect health. I am very grateful to you for the cure you have effected in my health, and I am happy to say that I have been cured of my chronic cough and asthma, and I am now in perfect health.

**Despises Cured.**  
It would be impossible for me to describe the relief which I have derived from the use of Ayer's Sarsaparilla. I have been suffering from a chronic cough and asthma for many years, and I have tried every remedy, but I have not been cured until I came to you. I am now in perfect health, and I am able to do my work as usual. I am very grateful to you for the cure you have effected in my health, and I am happy to say that I have been cured of my chronic cough and asthma, and I am now in perfect health.

**Ayer's Sarsaparilla.**
